

IDROROUND IP65

CORAL[®]Water
out

Incasso a scomparsa totale
Installazione in soffitto di cartongesso o laterizio
(vedi avvertenze specifiche per laterizio)
Corpo in Coral WaterOut[®]

A seguito di una modifica strutturale, il Coral[®] diventa Coral WaterOut[®], un materiale che impedisce la penetrazione dell'acqua al suo interno. La proprietà idrorepellente rimane inalterata nel tempo in quanto non è una finitura superficiale ma una caratteristica intrinseca del Coral WaterOut[®]. Privo di manutenzione il Coral WaterOut[®] aggiunge l'impermeabilità alle caratteristiche di durata, resistenza e bellezza tipiche del Coral[®]. Un nuovo materiale adatto per incassi a scomparsa totale IP65/IP44.

Recessed luminaires of total disappearance
Ceiling mounting
Body in **Coral WaterOut[®]**
Installation in plasterboard and/or brick
(see the special instructions for brick)

Due to a structural alteration, **Coral[®]** becomes **Coral WaterOut[®]**. A new material is born which blocks the penetration of water to its interior. The waterproof property remains unchanged within time as it is not a superficial finishing but an intrinsic characteristic of **Coral WaterOut[®]**. Devoid of maintenance, **Coral WaterOut[®]** adds impermeability to the typical characteristics of **Coral[®]** like durability, resistance and beauty. A new material suitable for completely disappearing recessed lighting IP65/IP44.

Einbaustrahler von Vollständiger unsichtbarkeit
Deckenanbringung
Frontkörper aus **Coral WaterOut[®]**
Installation in Gipskarton und/oder Ziegelstein
(siehe die speziellen Anweisungen für Ziegelstein)

Nach einer strukturellen Änderung wird **Coral[®]** zu **Coral WaterOut[®]**. Ein neues Material ist geboren, dass ein Eindringen von Wasser in sein Inneres verhindert. Der wasserabweisende Eigenschaften ist zeitbeständig, da es sich nicht um eine Oberflächenbehandlung sondern um eine dem **Coral WaterOut[®]** eigene Materialeigenschaft handelt. Ohne Wartung, fügt **Coral WaterOut[®]** den typischen Eigenschaften von **Coral[®]** wie Dauerhaftigkeit, Widerstandsfähigkeit und Schönheit, die Wasserundurchlässigkeit hinzu. So entsteht ein neues Material, geeignet für komplett versenkbare Einbauleuchten IP65/IP44.

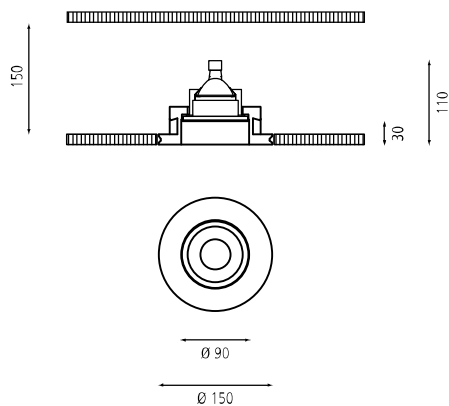

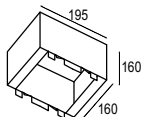

IDROROUND IP65

inclinazione fascio luce beam direction	90° 
foro emissione luce light emission hole	Ø 90 mm
codice code	5591.CW
