

GINEICO

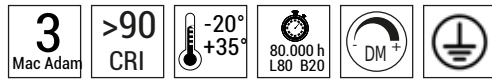

by Arianna e Bruno Teardo

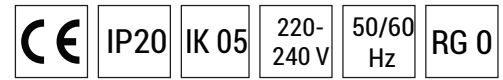

USE

LED

FEATURES

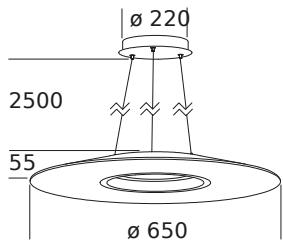

Suspension lamp, can be installed with direct or indirect light emission, with a simple turning during assembly. The direct light solution is ideal for illuminating a confined space with a high light output, while the indirect one is suitable for large spaces where diffuse and relaxing light is required. Molded metal diffuser with laser-cut details. All versions have the inside of the diffuser painted white to improve light reflection. Painted metal top cover to match the color of the structure. Steel support ropes and transparent PVC coated power cord. Screen made of opal polycarbonate, specifically for Led, which combines maximum brightness with the ability to avoid the spot effect of Led. Equipped with Led strips with high color rendering index (CRI90) and high-energy efficiency. Built-in electronic ballast. DM version equipped with dimmable power supply with DALI/PUSH interface. All electronic ballasts are equipped with thermal and short-circuit protection against overvoltage and overloading.
