FEATURES

Rechargeable table lamp, for illuminating places where there is no possibility of connecting to the electrical system. Ideal for all environments where direct and, at the same time, enveloping light is required. High visual comfort given by the shape of the lamp itself. Aluminium structure, painted steel base. Opal acrylic screen designed for the best light diffusion. Equipped with a SMD Led circuit with a high color rendering index (CRI90) powered by internal rechargeable batteries. The lamp switches by a touch button, located under the Led circuit, with the possibility of choosing two levels of luminous intensity. Battery life is guarantee for 8 hours at full power and recharging in 5-6 hours by micro USB type C located under the Led circuit. The battery charger is included with the lamp. IP54 protection rating makes it suitable for both indoor and outdoor use.
