

TAVOLO CON RUOTE SMALL 55 X 27

Gae Aulenti, 1980

An industrial trolley used at the FontanaArte plant to transport glass: this was the object that inspired Gae Aulenti to design her Tavolo con Ruote. It is a specimen of intuitive design that skips the drawing board stage and goes straight from the idea of a neveryday item to the prototype stage. This wheeled table replaces the factory trolley's wooden shelf with a chunky sheet of beveled glass – a tribute to the company's production history – and fits freerolling industrial wheels. The nature of the object and its intended use are transformed by replacing just one simple part.

Coffee table with ground float-glass top. Industrial wheels with painted metal brackets.

TAVOLO CON RUOTE XL - 47 X 47

Gae Aulenti, 1980

An industrial trolley used at the FontanaArte plant to transport glass: this was the object that inspired Gae Aulenti to design her Tavolo con Ruote. It is a specimen of intuitive design that skips the drawing board stage and goes straight from the idea of a everyday item to the prototype stage. This wheeled table replaces the factory trolley's wooden shelf with a chunky sheet of beveled glass – a tribute to the company's production history – and fits freerolling industrial wheels. The nature of the object and its intended use are transformed by replacing just one simple part.
